

Drunkard's Path, 4 Hour Workshop A Hearts & More or Rings and Things Pattern

Workshop Description:

Learn to create classic Drunkard's Path blocks without curved piecing using Sue's fusible Rotary Cut Appliqué method. Rotary-cut circles make this traditional block fast, accurate, and beginner friendly. You'll explore several block settings to customize the look of your finished quilt.

Additional sizes and design options will be shared to expand your Drunkard's Path options.

Measurements for the larger 7" and 9" circle blocks will be covered so you can add these sizes to your Drunkard's Path reference chart for future quilts.
